DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claims 17-20 and 31, drawn to a razor with a locking means.

Group II, claims 21, 22 and 32, drawn to a razor with a specific actuator configuration.

Group III, claim 23, drawn to a razor with longitudinal rails.

Group IV, claims 24-29, drawn to a razor with a specific razor head configuration.

Group V, claim 30, drawn to a razor with a cover.

2. The inventions listed as Groups I-V do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

Group I includes a special technical feature of a locking means that is not required for Groups II-V.

Group II includes a special technical feature of a specific actuator configuration (e.g., a pusher) that is not required for Groups I and III-V.

Group III includes a special technical feature of longitudinal rails that is not required for Groups I, II, IV and V.

Group IV includes a special technical feature of a specific razor head configuration (e.g., different sized heads) that is not required for Groups I-III and V.

Group V includes a special technical feature of a cover that is not required for Groups I-IV.

3. Because this Lack of Unity requirement is considered to be complex, a telephone call was not made to request an oral election to the above restriction requirement.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Clark F. Dexter whose telephone number is (571)272-4505. The examiner can normally be reached on Mondays, Tuesdays, Thursdays and Fridays.
